

Medium/Heavy Diesel  
Minutes  
April 5, 2012

Introductions:

Mike McAfee kicked off the meeting.

Minutes:

The minutes from the February 23<sup>rd</sup> meeting were approved.

Skills USA:

Frank expressed his appreciation for all the hard work done by the committee in preparing and judging the competition. All went as planned. Thanks to Jeff Cook, Trace Tolbe and Tom Peterson for their work in putting this in place. Justin Kett will compete at National Skills USA this summer.

Summer Internships:

Frank asked for assistance in setting up summer internship opportunities for the Junior class this summer. Any number of hours at minimum wage will be helpful. The City of Peoria has scholarships available for this summer. We also need to think about possible job slots for the seniors that finish in May. Frank and Ron will follow up with the membership. If you have available slots notify Frank.

Snap On:

Cliff explained the final agreement with Snap On for the diagnostic training center which will be housed in the training room classroom. Snap On has agreed to provide graphics and pictures for the lab and classroom. The kick off for this is set up through the Automobile Dealers Association for Educators on April 21. A schedule of 8 hour classes for industry will be forthcoming.

Equipment:

Based on the direction from the February meeting, Frank went and looked at the rolling cab mentioned by Mark. It was determined this had too much damage and parts missing to move forward. There is still a need for a medium to heavy truck engine, 2007 and up, for the program. If anyone has leads or ideas, please contact Cliff or Frank.

Presentation:

Frank presented plaques for those that participated in the job shadowing activity. Many thanks.

NATEF:

An open house for the new facility will be tied to the NATEF/AYES kick off either this spring or early fall.

***Next meeting: September 13, 2012 at 3:15pm***
